

SILCO meets young citizens at the Liceo G. Galilei in Voghera (PV)

Following the invitation of Prof. Alessandra Casati and Prof. Dimma Molinari teacher at the Liceo Statale “G. Galilei” (Voghera (PV)), SILCO, PI (Prof. Cinzia Cristiani, Polytechnic of Milan, and Dr. Sergio Molina Ramirez, research fellow at the Polytechnic of Milan and at the University of Genoa, met on 15/01 and 16/01 2025 students (about 50 in total) of some 4th and 5th classes of different high school courses, scientific, linguistic and sports.

During the meeting, some lessons were held and a discussion was stimulated and promoted regarding the circular economy, the "green transition", with particular attention to the capture and revaluation of CO₂, proposing the SILCO approach as a possible alternative to impact on climate change.
